

Brainstorming & Idea Prioritization Template

Date	1 July 2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	3 Marks

Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	Navya Likhitha Mavuri	Build a model that identifies whether an applicant is a low-risk or high-risk customer before approving a credit card		
2	Shanmukharao Nannigosay	Develop an AIpowered system that automates the credit card approval process, reducing manual effort and decision time		
3	Y N V Manideep Gatti	Predict whether an applicant is eligible for a credit card based on financial and demographic information		
4	Vinjarapu Sarvani	Focus on preventing approvals for applicants who are likely to default on payments , thereby reducing financial losses		

5	Pujitha Mekala	Build a prediction model that not only decides Approve/Reject but also explains the reasons behind each decision		
---	----------------	---	--	--

Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

Group No.	Final Idea	Feasibility (High/Medium/Low)	Importance (High/Medium/Low)	Priority	Selected (Yes/No)
1	Automated Credit Card Approval System Using Machine Learning	High	High	It helps financial institutions make faster, more accurate, and consistent decisions while reducing manual effort and operational costs.	Yes
2	Risk-Based Credit Card Approval System	High	High	It enhances the approval process by assessing an applicant's financial risk.	Yes
3
